- > Morning Star Gold NL (ASX: MCO) is an expanding gold explorer focused on the Woods Point Goldfield, the second largest hard-rock goldfield in the Victoria's illustrious production history.
- > MCO has the largest land holding position at Woods Point with a historical production record exceeding 1,600,000 ounces of gold within MCO tenements.
- > MCO's namesake mine was operated by Western Mining Corporation's GMA for 30 years, with production exceeding 883,000 ounces at an average grade of >28.5g/t gold.
- > Historic data includes outcropping dyke of 2,128,600 tonnes @ 2.1g/t Au and near surface stope extensions of 1,577,000 tonnes @ 5.5g/t Au.
- > Geological mapping, drilling and production records show the MCO tenements to have an endowment of greater than 220,000,000 tonnes of dyke host rocks directly associated with gold-bearing veins. Based on the historical production, this dyke tonnage presents an exploration target of 4 - 5 million ounces of gold.
- > MCO has just purchased 3 diamond-drilling rigs to do resource definition and mine planning. The drilling program commenced this Quarter.

Morning Star Gold has taken an aggressive approach to its regional exploration through land acquisition, resource definition drilling, underground drilling and expansion of its technical services group. MCO has taken on an owner-operator diamond drilling fleet delivering results in a cost-effective and timely manner.

Morning Star Gold offers employees an unrivalled residential lifestyle, being 2.5 hours drive from Melbourne, and less than 2 hours to Victoria's best alpine ski resorts and recreational reservoirs.

We are expanding the geological and mine planning departments, underground and surface drilling crews, and support services including part-time roles for semi retired professionals. Rosters are flexible, including 5/2 with drive in on Monday and out on Friday. Full time residence is available at Woods Point.
